Jakarta

UI/UX Designer with 5+ years of experience in Figma, user research, design systems, and hi-fi prototyping. I craft intuitive digital experiences while also supporting brand growth through social media marketing, catalog design, product packaging, and visual content across digital platforms.

Pengalaman Kerja

Edu Aequitas - Singapore

May 2026 - Sekarang

Freelancer

- Redesigned academic PowerPoint materials for university-level learning content in Singapore, improving visual structure, readability, and overall presentation quality for student audiences.
- Transformed complex lecture materials into cleaner, more engaging, and professionally structured slide decks to support better learning experience and content delivery.
- Redesigned plaque visuals using AI-generated image enhancement and creative direction to produce cleaner, sharper, and more polished final assets.
- Designed Grade 1 student books using Figma, focusing on child-friendly layouts, clear visual hierarchy, engaging illustrations, and accessible learning flow.
- Created professional business card designs that aligned with brand identity, ensuring a clean, consistent, and credible visual presentation.

Hattatech - Surabaya

Apr 2026 - Sekarang

Freelancer

- Designed high-impact visual assets for social media, e-commerce platforms, and product marketing needs, including packaging design, envelopes, catalogs, and pricelists using Figma, Adobe Illustrator, and Adobe InDesign.
- Developed consistent and professional brand visuals across digital and print materials to strengthen product presentation, marketing communication, and customer engagement.
- Designed website layouts with a strong focus on user experience, visual hierarchy, responsive structure, and business-driven content presentation.
- Implemented website designs into WordPress using website builders, ensuring the final output aligned with the approved design, brand identity, and functional requirements.
- Collaborated closely with internal teams to translate business needs into effective digital assets, supporting both marketing campaigns and company branding initiatives.

PT. Global Solusindo Kompudata - Jakarta

Jun 2025 - Sekarang

UI/UX Designer

- Led end-to-end redesign and implementation of the FlashKlik website (WordPress), enhancing brand presence, UX, and feature expansion (Careers, Partnership, Blog).
- Designed and delivered a truck tracking system for Pelindo (Pelabuhan Indonesia), including driver mobile app, admin dashboards, and digital signage for automated logistics monitoring.
- Developed enterprise-level operational dashboards for Pertamina using UEM framework, supporting system monitoring and device management.
- Collaborated cross-functionally with Head of R&D, DevOps, engineering, and marketing teams to ensure seamless design handoff and brand alignment.
- Supported marketing team in producing social media and promotional content (Instagram feed, carousel, story, ads, banners, flyers) using Canva, Adobe Photoshop, and Figma.
- Ensured visual consistency across digital and marketing materials in alignment with brand guidelines.
